

# JEE – Atividade Hands-on em Laboratório - 03

## Servlet enviando Página HTML

### Prof. Dr. Aparecido Freitas

#### 1. Introdução

No mesmo projeto criado no item anterior, criar um **Servlet** com as definições abaixo descritas:

Package: **br.com.qualitsys.servlets**

Classe: **Servlet\_03**

Vamos agora escrever o código no método **doGet** que irá providenciar a resposta **HTML** para o cliente.

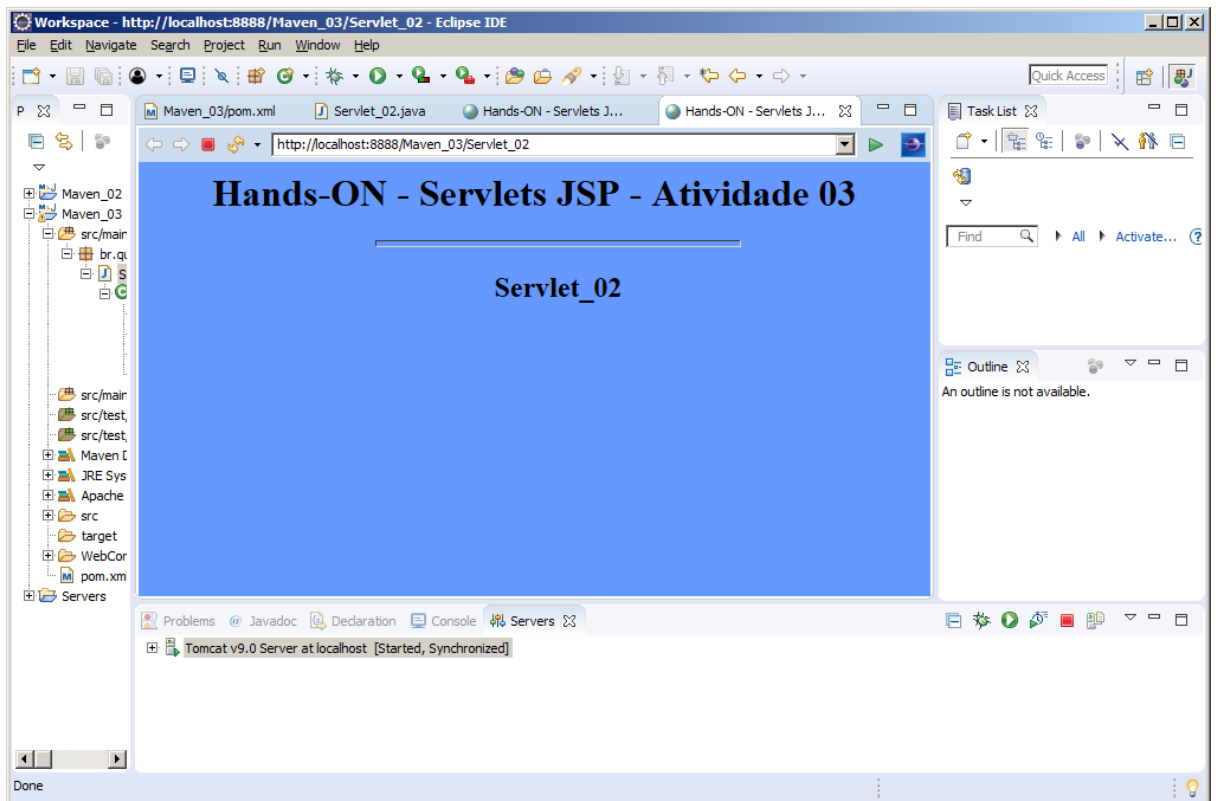

```
protected void doGet(HttpServletRequest request, HttpServletResponse response)
throws ServletException, IOException {
```

```
    PrintWriter out = response.getWriter();
    out.print("<html>");
    out.print("<body><h1>Hello World...</h1></body>");
    out.print("</html>");
```

```
}
```

Inicie o Tomcat, se ele não estiver sendo executado, depois, acesse:

**[http://localhost:8888/Maven\\_Project/Servlet\\_03](http://localhost:8888/Maven_Project/Servlet_03)**.

Ou diretamente no Browser:

```

package br.com.qualitsys.servlets;

import java.io.IOException;
import java.io.PrintWriter;

import javax.servlet.ServletException;
import javax.servlet.annotation.WebServlet;
import javax.servlet.http.HttpServlet;
import javax.servlet.http.HttpServletRequest;
import javax.servlet.http.HttpServletResponse;

/**
 * Servlet implementation class Servlet_03
 */
@WebServlet("/Servlet_03")
public class Servlet_03 extends HttpServlet {
    private static final long serialVersionUID = 1L;

    /**
     * @see HttpServlet#HttpServlet()
     */
    public Servlet_03() {
        super();
        // TODO Auto-generated constructor stub
    }

    /**
     * @see HttpServlet#doGet(HttpServletRequest request, HttpServletResponse
    response)
     */
    protected void doGet(HttpServletRequest request, HttpServletResponse
    response) throws ServletException, IOException {
        // TODO Auto-generated method stub

        PrintWriter out = response.getWriter();

        String Titulo = "Hands-ON - Servlets JSP - Laboratório 03";

        out.println(
            "<HTML>\n" +
            "<HEAD><TITLE>" + Titulo + "</TITLE></HEAD>\n" +
            "<BODY BGCOLOR=\"#6699FF\">\n" +
            "<H1 ALIGN=CENTER>" + Titulo + "</H1>\n" +
            "<OL>" + "<HR SIZE=4 WIDTH=50%>" +
            "<H2 ALIGN=CENTER>" +
            "Servlet_03" + "</H2>\n");
    }

    /**
     * @see HttpServlet#doPost(HttpServletRequest request, HttpServletResponse
    response)
     */
    protected void doPost(HttpServletRequest request, HttpServletResponse
    response) throws ServletException, IOException {
        // TODO Auto-generated method stub
        doGet(request, response);
    }
}

```
